KRASNOYARSK ARMS PLANT NO. 4

1. The Krasnoyarsk Arms Plant No. 4 has not changed significantly since NPIC Report R/47/64, January 1964. A review of all available photography from [redacted] necessitated only minor changes in the referenced report in regards to building functions and periods of construction of previously reported facilities.

2. Table I contains the description and complete dimensions of most of the buildings at the arms plant. All measurements have been made by the NPIC Technical Intelligence Division, with the exception of the height measurements of those buildings marked with an asterisk. These measurements were made by the CIA/PID analyst and should be considered only approximate. The NPIC/TID measurements are considered to be accurate within ± 5 feet or ± 10 per cent, whichever is greater.

3. Table II provides a description of the roads and railroads at Arms Plant No. 4. All measurements were made by the PID project analyst using scale factors provided by NPIC/TID, and are only approximate.
